Eric,

I won't be here after next Wednesday the 10<sup>th</sup> of August as I am being replaced by Frank in order to cover Li Tungsten.

**Subject:** NFB Schedule

Hi:

Attached is the proposed schedule for the remainder of the year. After this August break, I would like to work more consistently at the site with very little extended time off (More than three days-Thanksgiving and eventually Christmas break).

I am supposed to be getting an alternate OSC. Chris Jimenez has been mentioned. This will allow more continuous days. We would obviously need to consider health and safety to ensure the Weston and GES crew members get days off. However, this doesn't mean the site has to be shut down during some of the "Off" days now put in on the weekends. If we have an OSC on-site, we can work continuously some weeks and alternate some days off for crew members. As long as the GES and Weston lead is designated and capable. Example: Chris Jimenez takes over for me on a Monday. He works straight through until I relieve him the second week. Pete takes off that Saturday but the two other Weston members can

continue the work. Kevin takes off on Monday but Frank is there to take the lead that day and work continues.

I wanted to put this out there now for discussion. Winter is coming!!!!

Regards,

Eric
